Tool used – IBM Cognos

Dashboard

The screenshot displays the IBM Cognos Analytics with Watson dashboard in a web browser. The browser's address bar shows the URL `us1.ca.analytics.ibm.com/bi/?perspective=home`. The dashboard interface includes a top navigation bar with the text "IBM Cognos Analytics with Watson", a search bar labeled "Search content", and a user profile icon. A left sidebar contains a menu with options: "Home", "+ New", "Upload data", "Content", "Recent", and "Manage". A central "New" panel lists actions: "Data module", "Explore", "Exploration", "Present", "Dashboard", "Report", and "Story". The main content area features a large header with the text "Watson." and "Tour and Getting", accompanied by a 3D visualization of blue cubes and data points. Below this, there are two prominent cards: "Exploration" with the description "Quickly find unbiased answers by identifying trends in your data with data exploration." and "Present data" with the description "Create sophisticated, multi-page, multi-query dashboards, reports, or stories." The bottom of the screen shows a Windows taskbar with various application icons and a system tray indicating a temperature of 28°C, a cloudy weather condition, and the date 08-11-2022.
